Subject: RE: Briefing (re: Central Sands Dairy large CAFO)

Have you heard back from Chris regarding funding (\$5200) for Region 7? Or is that dependent on briefing Ed?

Purpose: Briefing on our proposal to investigate Central Sands Dairy, LLC, (CSD) a large CAFO (5000 mature dairy cow operation) in Nekoosa, Wisconsin. CSD is the only known large CAFO in Cambrian-Ordovician Aquifer. EPA and Wisconsin Department of Agriculture Trade and Consumer Protection have tested private wells in this aquifer and found unsafe levels of nitrates. Region 5 would like to further investigate CSD as the source of groundwater and surface water pollution that has led to the contamination of private wells and Petenwell Lake.
